

BACK TO CHURCH

TDS *Back to Church* is a comprehensive COVID-19 mitigation end to end solution, specifically tailored for faith based organizations.

Here is what we recommend:

- Step 1: Get your building cleaned, disinfected & tested with a certified infection control specialist
- Step 2: Put protocols in place that focus on preventing individuals from bringing COVID-19 contaminants into the building
- Step 3: Have your facility manager & janitorial crew trained by a certified infection control specialist
- Step 4: Utilize FDA approved products to maintain protected

TDS & Associates provides **ALL OF THE ABOVE** as a single source solution to your church.

We can help you overcome the challenges you are facing with mitigating the threat that COVID-19 poses to your congregation. We developed procedures and protocols, combining proven infection control products and practices, that will allow you to safely return to pre-pandemic operating capacity.
